Add Roles and Features Wizard

Before you begin

Before You Begin

- Installation Type
- Server Selection
- Server Roles
- Features
- Confirmation
- Results

This wizard helps you install roles, role services, or features. You determine which roles, role services, or features to install based on the computing needs of your organization, such as sharing documents, or hosting a website.

To remove roles, role services, or features:
Start the Remove Roles and Features Wizard

Before you continue, verify that the following tasks have been completed:

- The Administrator account has a strong password
- Network settings, such as static IP addresses, are configured
- The most current security updates from Windows Update are installed

If you must verify that any of the preceding prerequisites have been completed, close the wizard, complete the steps, and then run the wizard again.

To continue, click Next.

- Web Server (IIS)
- Windows Deployment Services

Description

Active Directory Domain Services (AD DS) stores information about objects on the network and makes this information available to users and network administrators. AD DS uses domain controllers to give network users access to permitted resources anywhere on the network through a single logon process.

⚠️ Windows Server 2022 domain controllers have a default for the security setting named "Allow cryptography algorithms compatible with Windows NT 4.0" that prevents weaker cryptography algorithms when establishing security channel sessions.

For more information about this setting, see Knowledge Base article 942564 (<http://go.microsoft.com/fwlink/?LinkId=104751>).

⚠️ A delegation for this DNS server cannot be created because the authoritative parent zone cannot be found or it does not run Windows DNS server. If you are integrating with an existing DNS infrastructure, you should manually create a delegation to this DNS server in the parent zone to ensure reliable name resolution from outside the domain "hogwartscastle.local". Otherwise, no action is required.

⚠️ If you click Install, the server automatically reboots at the end of the promotion operation.

Control Panel

Prohibit access to Control Panel and PC settings

Edit [policy setting](#)

Requirements: At least Windows 2000

Description: Disables all Control Panel programs and the PC settings app. This setting prevents Control.exe and SystemSettings.exe, the program files for Control Panel and PC settings, from starting. As a result, users cannot start Control Panel or PC settings, or run any of their items.

This setting removes Control Panel from:
The Start screen
File Explorer

Extended / Standard /

The image shows two side-by-side windows from Oracle VM VirtualBox. The left window is titled "Windows Server 2022 [In esecuzione] - Oracle VM VirtualBox" and displays the "Group Policy Management Editor". The right window is titled "Windows 10 Pro N [In esecuzione] - Oracle VM VirtualBox" and displays a "File Explorer" window.

Group Policy Management Editor (Left Window):

- Left pane:** Shows the navigation tree under "Studenti GPO [HOGWARTS.HOCON]".
 - Computer Configuration
 - User Configuration
 - Policies
 - Administrative Templates
 - Control Panel (selected)
 - Desktop
 - Network
 - Shared Folders
 - Start Menu and Taskbar
 - System
 - Windows Components
 - Preferences
- Right pane:** Displays the policy settings for "Prohibit access to Control Panel and PC settings".
 - Setting:** Prohibit access to Control Panel and PC settings
 - Requirements:** At least Windows 2000
 - Description:** Disables all Control Panel programs and the PC settings app.
 - Details:** This setting prevents Control.exe and SystemSettings.exe, the program files for Control Panel and PC settings, from starting. As a result, users cannot start Control Panel or PC settings, or run any of their items.
 - This setting removes Control Panel from:** The Start screen, File Explorer
 - This setting removes PC settings from:** Extended / Standard

File Explorer (Right Window):

- The File Explorer shows a folder structure: Rete > Hogwarts > Hogwarts 2.0.
- The contents of the "Hogwarts 2.0" folder are listed:

Nome	Ultima modifica	Tipo	Dimensione
Accesso Sala Grande	18/10/2024 12:26	Cartella di file	
Aule Virtuali	18/10/2024 12:26	Cartella di file	
Biblioteca	18/10/2024 12:26	Cartella di file	
Eventi - Ballo del Ceppo	18/10/2024 12:27	Cartella di file	
- A context menu is open over the "Eventi - Ballo del Ceppo" file, displaying options like Immagini, Musica, Video, and OneDrive.
- A warning dialog box is overlaid on the File Explorer window, stating: "Operazione annullata. Sul computer sono attivate delle restrizioni. Contattare l'amministratore del sistema." (Operation canceled. Computer restrictions are active. Contact the system administrator.)
